

## BSCW75B Spading-Closing Wheels

- 3/8" thick, 13" diameter right and left toothed steel wheel with diamond shaped points
- Single 2-row ball bearing
- Double threaded specially designed axle
- Fits Deere 750 and 1850 drills
- Completely aerates above seed
- Creates a miniature ridge that sheds water and helps maintain a warmer seed environment

## BSCW75BD-20 Dimple Closing Wheels

- 1/2" thick, 13" diameter steel wheel with 20 rounded points
- Single 2-row ball bearing
- Double threaded specially designed axle
- Fits Deere 750 and 1850 drills
- Firms soil at rounded points while leaving looser area between points
- Less aggressive than BSCW75B4

## BSCW156 Spading Closing Wheels

- 3/8" thick, 13" diameter right and left toothed steel wheel with diamond shaped points
- Fits 1560, 1860, 1590, and 1890 drills
- Completely aerates above seed
- Creates a miniature ridge that sheds water and helps maintain a warmer seed environment
- Mounts on existing closing wheel arm

## BSCW156D-20 Dimple Closing Wheels

- Fits Deere 1560, 1860, 1590, and 1890 drills
- 1/2" thick, 13" diameter steel wheel with 20 rounded points
- Firms soil at rounded points while leaving looser area between points
- Less aggressive than spading closing wheels
- Mounts on existing closing wheel arm
